# WARM SEASON GRASS APPLICATION SCHEDULE FOR YEAR

## ferti•lome 5-STEP LAWN CARE PROGRAM

	JAN	FEB	MAR	APR	MAY	JUN	JULY	AUG	SEPT	OCT	NOV	DEC
<b>STEP 1</b>			■	■								
<b>STEP 2</b>				■	■							
<b>STEP 3</b>						■	■					
<b>STEP 4</b>							■	■				
<b>STEP 5</b>								■	■			

For Warm Season grasses such as Zoysia, Bermuda, and Buffalo.

### STEP 1

Hi-Yield **Turf & Ornamental Weed & Grass Stopper**  
**Containing Dimension** Apply mid March - mid April. Helps prevent crabgrass and other broadleaf weeds. Provides up to 4 months of crabgrass control.

### STEP 2

ferti•lome **Pro-Green Lawn Tonic (16-0-0)** Apply on warm season grasses April - May. Promotes a healthy deep green lawn and helps acidify the soil. Contains no weed control.

### STEP 3

ferti•lome **HuMic** (natural soil amendment) Apply in June. Not a fertilizer, but this product REALLY greens up your lawn! Unlocks nutrients to improve soil structure and fertility. Encourages root development. Improves turf resistance to stress.

### STEP 4

ferti•lome **Winterizer (25-0-6)** Apply mid June - mid July to encourage maximum growth during the peak growing season.

### STEP 5

ferti•lome **Winterizer (25-0-6)** Apply mid July - mid August, about 30 days after your first Winterizer. Increases winter hardiness, keeps grass greener longer and promotes earlier spring green up.

### OPTIONAL

Apply Hi-Yield **Turf Ranger II Insect Control Granules** for fleas, ticks, chiggers and sod webworms. For grubs, apply Hi-Yield **Grub Free Zone III** as a preventative in late spring/early summer before grubs do damage. Apply **Hydretain** after step 2 to help maintain soil moisture.

PLEASE READ AND FOLLOW LABEL DIRECTIONS ON ALL PRODUCTS.
