COOL SEASON GRASS APPLICATION SCHEDULE FOR YEAR

**ferti-lome
5-STEP
LAWN CARE
PROGRAM**

	JAN	FEB	MAR	APR	MAY	JUN	JULY	AUG	SEPT	OCT	NOV	DEC
STEP 1												
STEP 2												
STEP 3												
STEP 4												
STEP 5												

For Cool Season grasses such as Turf-Type Fescue, Kentucky Bluegrass, and Ryegrass.

STEP 1

ferti-lome **For All Seasons II Lawn Food Plus Crabgrass & Weed Preventer (16-0-8)** Apply in January through mid April. Prevents grassy-type weeds (crabgrass and more) all season long (until fall) while it feeds your lawn.

STEP 2

ferti-lome **Green Maker (18-0-6)** Apply during the early growing season. Slow-release fertilizer promotes a healthy, deep green lawn. Does not contain weed control. To avoid iron staining, sweep off of concrete surfaces.

STEP 3

ferti-lome **HuMic** (natural soil amendment) Apply in spring or fall. Not a fertilizer, but this product REALLY greens up your lawn! Unlocks nutrients to improve soil structure and fertility. Encourages root development. Improves turf resistance to stress.

STEP 4

ferti-lome **Winterizer (25-0-6)** Apply in September through October to encourage maximum growth during the peak growing season. For new lawns, substitute one Winterizer application with ferti-lome **New Lawn Starter Fertilizer (9-13-7)**.

STEP 5

ferti-lome **Winterizer (25-0-6)** Apply in October through December, about 30 days after your first Winterizer. Increases winter hardiness, keeps grass greener longer and promotes earlier spring green up. When weed control is needed, substitute Winterizer with ferti-lome **Weed-Out Plus Lawn Fertilizer (25-0-4)** starting in mid October. Controls weeds such as henbit, dandelion, clover, and chickweed while feeding your lawn. For best results water in after 24 hours.

OPTIONAL

Apply Hi-Yield **Grub Free Zone III** in late spring/early summer before grubs do damage. Apply ferti-lome **F-Stop Fungicide Granules** during the growing season to control diseases like brown patch. Apply **Hydretain** after step 2 to help maintain soil moisture.

PLEASE READ AND FOLLOW LABEL DIRECTIONS ON ALL PRODUCTS.
